**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 43-101, 109-133, 139-146 and 149, drawn to an ink container for containing an ink, classified in class 347, subclass 86.
  - II. Claims 102-108 and 134-138, drawn to a reciprocally-movable carriage for carrying an ink jet cartridge, classified in class 347, subclass 37.
  - III. Claim 147, drawn to a protection member for an ink container, classified in class 347, subclass 29.
  - IV. Claim 148, drawn to a combination of ink containers, classified in class 347, subclass 49.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I. and II. are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I. has separate utility such as an ink jet head and ink supply for an ink jet printer have a full-line head. See MPEP § 806.05(d).
3. Inventions I. and III. are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II. has separate utility such as a package used for shipping a fluid supply container. See MPEP § 806.05(d).

Art Unit: 2853

4. Inventions I. and II. are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II. has separate utility such as an identification system for a set of integral ink jet heads. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Craig A Hallacher whose telephone number is (703)308-0516. The examiner can normally be reached on M-F (8:30-6:00) First Friday Off.
